

February 2021

February might be the shortest month of the year, but it's chock-full of beloved national holidays from Groundhog Day, Superbowl Sunday to Valentine's Day. Fun gifts will be delivered safely to you. Thank you all who participated last month for the first round of COVID-19 vaccine. As a reminder, the second vaccine clinic will be Saturday February 13, 2021. Our top priority is for you to be happy and healthy. Thank you for continued efforts of social distancing, handwashing, and always wearing your mask when you are leaving your apartment/cottage. Please take care of you for that takes care of others. Remember if you feel ill, call Jane at 508-325-6823 with your symptoms and she will give you the best possible advice.

Thank you for your patience with accepting the policies in place for your safety. With the uptick in cases on Nantucket we feel that it is best to pause our in-person activities. Once the island is at a better place then we can bring back Sherri Perelman for yoga, Mollie Glazer for piano, and Sandy Walsh for massage therapy. The "weekly" will be printed and put in your pigeon mailboxes or delivered to your cottage. If there are gifts or special drop offs, we will make sure that everyone gets one. If you see it on the weekly and I have forgotten, please reach out to me at 508-325-6802 or vlarrabee@sherburnecommons.org. If there is anything that you find to be most interesting, please let me know as well or something that we can do for you. Still all outgoing mail has a bucket by the front desk and not in the enclosed slot. All mail will be in your pigeon holes and larger boxes will be delivered to your apartments. If you need stamps, there are some for sale at the front desk. Don't forget to say happy birthday to the birthday personas of the month.

Every day, the "food specials" will be emailed to our residents and they are posted at the front desk with the dinner, lunch, and breakfast menus. Phone the front desk for take-out or email your requests at menu@sherburnecommons.org. Please know that if you need anything from Bartlett Farm curbside, banking needs, pharmacy runs, and or anything else within our means.

Please keep in contact with each other, staff, and family - safety and from a social distance. We encourage you to make social contacts from your home via email, phone, skype, or any other app on your electronic device with family or friends. If you need help, please ask. Thank you for your ongoing

adherence to our visitor policy. Please schedule appointment times with the front desk. If you have any questions, feel free to reach out to us. Please know that your patience, caring, and understanding is what makes Sherburne Commons a wonderful safe retirement community. We are here for you. Thank you for being you and be safe!
