Testimonials

“I’m not sure who identified Best of Care for us, but they staffed the perfect home health aide. My aunt adored her and the other Best of Care staff. They were so reliable and dedicated. They are always willing to work with us, especially when our needs changed. They did extra things to make her more comfortable, putting lotion on her legs because her skin was so dry and positioning her so she didn’t get sores. They were really tuned into her needs.”

“I’ve been trying to figure out what makes Best of Care so good. Everyone is so flexible and responsive. I think it has to come from the top. It’s a family-owned business and they impart their values to all of their staff.”
